

## Experts in herbal pet care

Nothing beats having a healthy, happy dog. We know that because we love dogs as much as you do. For almost 70 years we've been breeding, working and showing dogs, and applying our knowledge of herbal medicine to their health and nutritional needs. We're now in our third generation at Dorwest, where our insights have made us the UK's leading provider of canine and feline herbal treatments – and the only manufacturer of herbal medicines authorised by the Veterinary Medicines Directorate.

In more than 20 countries around the world we're helping dog and cat owners keep their pets healthy and content. They come to us for herbal treatments that work in harmony with their dogs – the young and the old...glossy show dogs and lovable crossbreeds...active, outdoors types and contented, fireside stay-at-homes.

## Dog lovers with pharmaceutical standards

A commitment to medicinal rigour underpins everything we do. We prepare our treatments to pharmaceutical standards using active ingredients taken from the whole plant. No second-stage extracts for us: ours come directly from the leaves, stems, roots and first pressings of oil – and only from herbs that meet our own stringent quality standards. The result is a comprehensive range of herbal veterinary medicines, herbal dietary supplements and homoeopathic remedies that help keep your dog or cat's life in balance.

Away from the lab and the white coats, we're typical dog lovers – keen to chat with fellow dog owners and delighted to offer advice on anything from supplements for an active lifestyle to treatments for travel sickness, phobias or ageing joints. We love being part of that great dog-owning community, and feel privileged to be able to share our expertise with fellow dog enthusiasts.

# Skin problems?

Skin conditions are all too common in dogs and cats and symptoms will often depend on the underlying cause, such as flea, atopic, food, contact or bacterial allergy. Your pet may be licking excessively, itching or nibbling and physical symptoms can range from inflamed red skin, scurfy dry skin, hair loss or even pustules and broken skin.

Herbal medicines and the use of appropriate supplements can be very useful in the treatment and control of these often recurring conditions, having a high success rate in providing help whilst having negligible side effects. Our treatments and supplements can all be used on their own or alongside conventional treatments from your vet.

First it's a good idea to follow these basic steps:

- Don't let your pet sleep in your bed! Dust mites in bedding can cause or aggravate skin problems and also remember to wash your pet's beds regularly
- Try and keep your pet's diet as natural as possible. Hypo-allergenic foods are a good starting point
- Don't give your dogs any synthetic processed treats, especially those with artificial colourings as they can cause or exacerbate the problem
- Check and treat for parasites on a regular basis

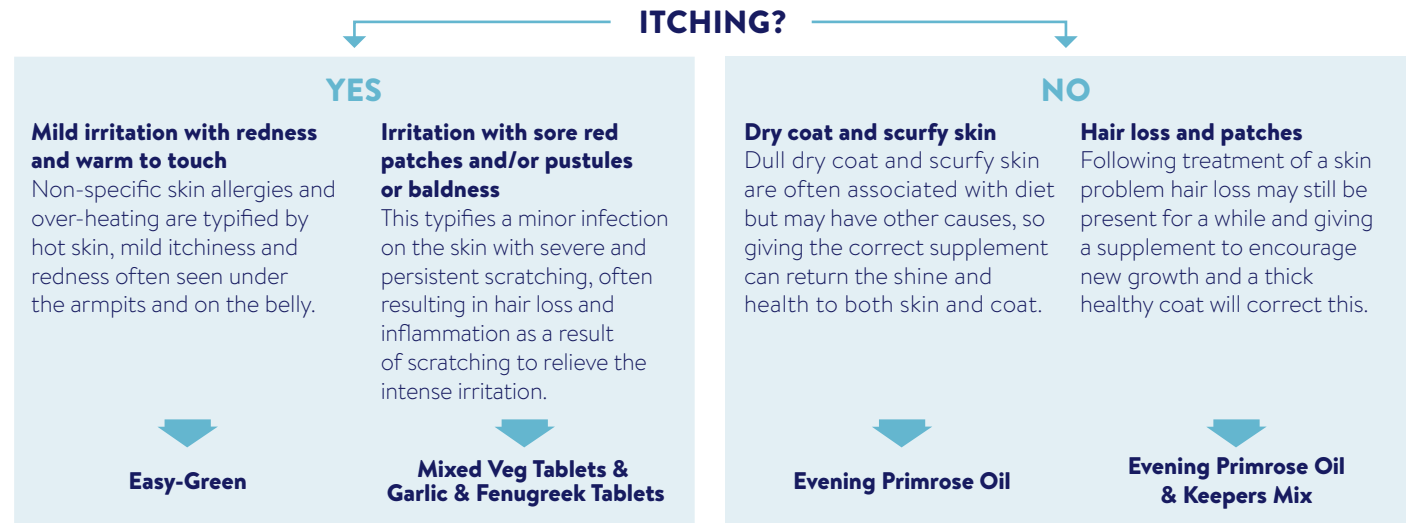

Remember we are not vets and do not diagnose. You should always consult a vet if you are concerned about your pet's health.

**“YOU HAVE MADE US ALL VERY HAPPY !”**

Can I say a big thank you for very fast delivery. Also after 3 days of taking **Garlic & Fenugreek Tablets** and **Mixed Vegetable Tablets** my dog skin has calmed down, no biting and no scratching. Amazing you have made us all very happy.

*Mrs K Hulbert, Bristol*

Follow the chart to find the best Dorwest product for your pet's skin problem

### Easy-Green

This superior supplement contains three “super green foods” - parsley, spinach and watercress that help cool the skin making it beneficial for dogs and cats suffering with skin conditions.

### Mixed Vegetable Tablets

A licensed medicine to relieve irritation, with herbs containing over 10 natural analgesics (pain killers) and 20 anti-inflammatory compounds.

Active ingredients per tablet: Watercress 70mg, Celery seed 30mg, Horseradish root 30mg, Celery plant 30mg, Parsley herb 20m.

### Garlic & Fenugreek Tablets

A licensed medicine containing herbs with natural anti-inflammatory compounds that synergistically treats any minor infection and helps eliminate toxins.

Active ingredients per tablet: Fenugreek 16mg, Garlic Oil 0.22mg  
Garlic & Fenugreek Tablets and Mixed Vegetable Tablets are particularly effective when given together.

### Evening Primrose Oil Capsules or Liquid

Containing omega 6 fatty acids and a high 10% content of Gamma Linolenic Acid (GLA). Ideal to maintain skin condition, reduce dry skin and increase coat growth and shine.

### Keeper's Mix

Our unique formulation for overall health, providing essential nutrients that are particularly beneficial in encouraging hair growth for a thick healthy coat.

### Oatmeal Advance Shampoo

Hypoallergenic dermo-calming shampoo for all skin conditions. Specially formulated to soothe, relieve and replenish dry and irritated skin. A pH of 7 works harmoniously with your pet's skin to maintain its natural balance. Lavender oil, colloidal oatmeal and glycerine cleanse the coat and nourish the skin and with no SLS/SLES, artificial fragrances or colouring this is the perfect natural shampoo for pets with delicate or irritated skin.
